

A surreal image of an astronaut in a white spacesuit riding a dark horse on the moon's surface. The astronaut is holding the reins, and the horse is in motion. In the background, another astronaut is visible near a lunar module. The moon's surface is covered in dust and rocks, and the sky is black with stars. A small flag is planted in the ground to the left of the horse.

BIO

A creative force from London, England. Now residing in Dubai, we are backed by over 30 years of combined experience in the world of media, branding, and storytelling.

At the helm of a discreet yet fiercely impactful agency, our team thrives behind the scenes, where client names remain confidential and the portfolio is intentionally private.

This isn't mystery for mystery's sake; it's a testament to a philosophy built on trust, results, and bold originality.

With a no-risk promise, “we prove our worth before you pay a penny”, Solomon Huff delivers ideas that not only spark attention but drive real sales, amplify brand awareness, and craft unforgettable customer experiences.

This is creative partnership without compromise.
